

Welcome to Girls in Motorsport – the UK’s single biggest initiative to get more girls on the path to motorsports careers.

Fully funded club and championship racing for girls in Cheshire!

Location: Hooton Park Kart Circuit in Ellesmere Port

West Rd, Ellesmere Port, CH65 1BR, off Junction 6 on M53

Motorsport is a gateway to rewarding careers in science, engineering and technology – we hope to inspire the next generation of female STEM professionals.

This is an unrivalled experience for 10 x girls to make their kart racing debut and compete in the Cheshire Karting Championships at Hooton Park during the 2016 season.

To qualify you must be aged 14 -16 years old, and live in or around Ellesmere Port. No driver’s license or prior experience is required.

This 12 month karting programme is fully funded thanks to grants from organisations like **Cheshire Community Foundation**. That means it’s FREE for participants – all race karts, racewear and coaching tuition will be provided.

Starting in Dec 2015, you’ll begin a regular programme of expert coaching and driver training from racing pros to prepare you for the new race season starting in March 2016.
