

## Destination Space Special Event

**Dates:** 3 & 4 Dec 2016

**Time:** 10:00 – 14:00

**Details:**

Come along and have a go at our rover robot challenge; can you navigate a mini mars rover around a Martian landscape obstacle course? Watch an exciting show of science demonstrations exploring: how to train like an astronaut, how to get to space, what living and working in space is like, and how to get back to Earth safely.

Make your own astronaut badge to take home or learn about the mysterious star patterns you can spot in the night sky in our 'curious constellations' craft workshop. Or why not get your face painted with stars or planets, then get dressed up as an astronaut and pose in front of a starry night sky to get that perfect selfie?

**How to Book:**

Please submit a completed bookings form via our website:

<http://www.liverpoolmuseums.org.uk/learning/contact.aspx>

**Please submit bookings by the 18<sup>th</sup> November 2016**
