

Become a STEM Ambassador

We are committed to working with the STEM Ambassadors programme to help close the UK's skills gap and raise young people's aspirations in science, technology, engineering and mathematics (STEM) subjects.

Volunteer in your local community and inspire young people with activities such as:

Site visits

STEM Clubs

Science festivals

Careers talks

Mentoring

Classroom activities

Get involved:
Join a community of over 30,000 volunteers across the UK, working to create a brighter future for young people
