 Write a question for students to think about eg. When planning to build a new train line, what do you think are the jobs created from the start of the planning stage to the completion of the new train line?
2. A short problem you face at work — ask students to think about how they would deal with it. eg. In my city, there are too many cars on the road, and the population is growing. People spend a lot of time in traffic, especially the ones living in the outskirts but working in the city. How would you solve this problem?
