

FINDING ADA

CELEBRATING ADA LOVELACE

Tuesday 6th October 2020

By getting to know Ada Lovelace's work and legacy

... With An Introduction to Python Coding.

In this snappy, hands-on session we will introduce you and your students to the Python programming language. With careers in coding increasing and broadening each year there really is no better time for you to learn how to code than NOW!

... Women in STEM. Careers Carousel.

Meet a panel of professionals in data science, computer science, mathematics and computational biologists and talk to them about anything you'd like to know about their professional life and career.

... #ArtforAda2020 Competition - 13th October 2020

Get creative and show us how Ada has inspired you for the chance to win a prize. Whether it is a piece of art or a small computer programme.
