

# Career Connect's Careers Leaders Programme

Funded for the third year by CEC, Career Connect is proud to be a provider of a Level 6 accredited Careers Leaders Programme across the North West. Our course offers a flexible supportive approach to delegates. This year we hope to be able to offer our Careers Leaders a choice between virtual or face to face delivery.

We develop middle or senior managers as specialist Careers Leaders. Over an academic year, the Careers Leader will design, implement and evaluate a whole school/college improvement strategy that ensures progress towards achieving and sustaining all eight Gatsby Benchmarks. The programme is tailored to meet the needs of each school or college and provides a foundation for long-term improvement through blended learning modules including 2 training sessions each term, digital resources and personalised support. Delegates will complete 3 Accredited Units from the Level 6 Diploma in Career Guidance and Development and will have the opportunity to network, develop lasting partnerships and develop practical strategies for improving their school or college's careers programme.

*"The Careers Leader course made me realise how fundamental quality career information, advice and guidance is needed in schools. It allowed me to confidently implement a whole school career plan, evaluate performance and feedback to SLT with recommendations. I thoroughly recommend at least 1 teacher from every school to complete the course, as it allows you to create a coherent career programme with confidence".*
